

## **Oregon School District**

### **Sample Policy**

#### **District Libraries**

The Board recognizes the need for the district to provide print and nonprint materials in a collection with sufficient breadth to support the school's educational programs and the students' interests as well as sufficient depth to meet the needs of wide-ranging abilities.

The library media center will make materials available to users through the organization of such materials according to recognized library/media standards. The instruction in the use of these materials, the provision, maintenance and update of the collection and of necessary equipment and production of special materials are also recognized as necessary activities appropriate to the library/media center.

Selection of materials will be made according to recognized collection development principles and support the needs of school and district curricula and student achievement goals. Requests for reconsideration of library materials shall follow the procedures established for reconsideration of instructional materials identified in Board Policy IIA-AR and use the form "Request for Reconsideration of Library Materials."

Library/Media services shall be reviewed annually. The review shall include curriculum, personnel and inventory.
