DISCUSS

Your best supervisors

Take 10 minutes to discuss the characteristics of the best supervisor you have ever had (or the best qualities of an average supervisor).

DIMENSIONS OF GREAT Managers

- **Communication**
- **Decision-making**
- **Recognition**
- **Accountability**
- **One of us!**

SUPERVISOR'S *Perspective*

As employees, we are often unaware of some of the pressures and considerations impacting supervisors.

RATE YOUR *Boss*

- **What are their top 3 qualities?**
- **What do you wish they understood about your work?**
- **What's one thing you wish they could do better?**
- **How can you work with them to make that happen?**
- **Bonus: What would your coworkers say if they were rating you?**

CREATE YOUR IMPROVEMENT

Plan

How can you work with your supervisor to make improve their performance?

Factor in their personality and communication style.

Factor in things about their duties that might factor in to their opinions and perspectives.

What are simple things you can do that will make them feel like you are making their work easier in ways they can see, while also benefitting you.

Try to list three things you can do regularly.
